ENUNCIAT:

Hello students, the following project is about a video (in fact two videos of less than 1 minute each) in which you will send an employer from a company, a motivation video explaining why you want to be part of the company that is publishing the job position.

You will have to upload:

1. A screenshot in a word document, of the job position that you have found, and want to apply from Linked-in (infojobs, etc.).
2. You have to paste in the same word, the text that you will use in your motivational video.
3. Upload to classroom a motivational video created in HEYGEN with your avatar. The video that you would be sending to that company (you have to explain what motivates you about the position that you want to apply for and why you believe that you are the ideal candidate).
4. Upload another video of yourselves, saying the same thing but with your voice (just reading the same text).

The objective of the activity is that you can see the difference and the importance of practicing speaking in English.

I hope you have fun!
